RELY ON RUUD.™

## Why Ruud®?

Stay warm and comfortable on winter nights with a Ruud Oil Furnace. Ruud offers products made to fit every budget, so your loved ones can rely on worry-free home comfort year after year. Ruud works hard to bring homeowners real reliability through the development of energy-efficient Heating and Cooling solutions—products engineered to save money and go easier on the environment. With a Ruud Oil Furnace, you can kick back with genuine comfort, efficiency and reliability.

### Always Reliable Comfort

Ruud Achiever® Series Oil Furnaces are built for the low-profile needs of today's homes. You can rely on quiet and affordable comfort for years to come.

### Built Strong

Ruud Achiever Series Oil Furnaces are built around a 10-gauge primary heat exchanger and a 14-gauge secondary heat exchanger and are lined with specialty-grade 18SR Stainless Steel for extra protection. These reliable furnaces are also equipped with ceramic fiber combustion chambers that are completely removable for easy servicing.

### Multiple Motor Options

Controlling airflow is an important part of keeping your home comfortable. Ruud offers you the choice between a 4-speed PSC Motor or a high-efficiency ECM Motor. The PSC motor is engineered to operate at four set speeds. The ECM Motor uses an advanced, variable-speed motor that automatically changes speed for heating and cooling mode requirements. This stops any sudden bursts of air while delivering constant temperatures throughout your home.

### Selected Premium Burner Brands

Choose between Beckett®, Carlin® and Reillo® premium-branded burners. You may prefer one brand over another for various reasons, so the choice is yours.
