ACHIEVER SERIES

R801C DOWNFLOW

80% AFUE¹

Peace of Mind

In addition to many features to ensure years of reliability, our gas furnace is backed by some of the best warranties² in the industry.

Exceptional Quality

We're serious about the quality and reliability of our products. That's why our gas furnace is engineered with the exclusive PlusOne® Ignition System, one of the most dependable ignition systems on the market.

Efficiency & Savings

A single-stage constant torque motor delivers the right amount of heat for a more comfortable home and a lower utility bill.

RELY ON RUUD.™

Ruud Philosophy of Reliability

Designed to keep your family comfortable for years to come, Ruud® products are developed using the 360°+1 design philosophy. The Ruud brand strives to deliver the very best homeowner experience by evaluating every detail of the product from every angle. That's 360°+1. And that's why you can rely on Ruud heating and cooling solutions to bring you and your family years of comfort.

We Did the Work So You Can Stay Comfortable

Our gas furnace line was already recognized as best in its class³, but that didn't stop us from making it better. We designed our Ruud Achiever® Series Gas Furnace to provide your home with dependable quiet comfort for years to come.

Reliability

The Ruud Achiever Series Gas Furnace is engineered with the **1 PlusOne® Ignition System**. Our Direct Spark Ignition is a Ruud-exclusive feature that's nine times more reliable than most hot surface igniters. It's also the same proven design used in commercial air equipment and gas home appliances. Our patented heat exchanger is quick and easy to clean—when needed by your local Ruud contractor. And a clean furnace is a long-running furnace.

Fast & Accurate Diagnostics

The Ruud Achiever Series Gas Furnace features **2 PlusOne Diagnostics**, our industry-first seven-segment alphanumeric LED display that simplifies troubleshooting. Just in case there's a need, service calls are faster, which ultimately saves you money.

Increase Your Energy Savings

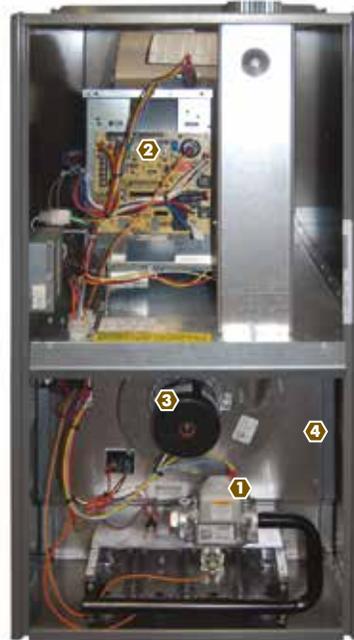

Ruud's R801C delivers 80% AFUE, which means 80% of the fuel in your furnace is converted to heat. The **3 constant torque ECM motor** maintains efficiency across a range of operating speeds, using less electrical energy than a standard PSC motor.

Hassle-Free Installation

The **4 34" cabinet** fits nicely in tight spaces allowing for both new construction and retrofit installations, saving you and your dealer time and trouble.

YOUR LOCAL RUUD CONTRACTOR

¹Annual Fuel Utilization Efficiency (AFUE) measures the amount of heat delivered to a home compared to the amount of fuel that is supplied to the unit. Higher AFUE ratings reflect higher efficiency. ²For complete details of the limited and conditional warranties, including applicable terms and conditions, contact your local contractor or go to Ruud.com for a copy of the product warranty certificate. Conditional warranties must be registered through RegisterMyUnit.com. ³80% Gas Furnace and AC Focus Group Analysis / February 10, 2011.
