Innovation You Can Count On

Patented industry-first features and advanced design make the Ruud Endeavor WSA14AZ a smart choice.

Peace-Of-Mind Performance

Relax, you're covered by a dependable warranty¹—10 Year Conditional Parts.

Less Environmental Impact

The 7mm condenser coil provides a decrease in refrigerant requirements up to 15%, lowering the amount of greenhouse gases emitted while contributing to our sustainability goal of a 50% reduction in our greenhouse gas footprint by 2025. A win for all of us.

Rugged Curb Appeal

A fully louvered steel legacy cabinet features durable construction to protect from yard hazards and weather corrosion while using less refrigerant and providing enhanced dependability. This model also features a one-piece drawn and painted base pan. The pan elevates the coil off the pad helping minimize corrosion while also reducing sound.

Quiet Operation

Efficient home comfort shouldn't be noisy. That's why our air conditioners are engineered with acoustics in mind. Integrated sound-dampening features such as refrigerant tubing design, fan blade approach, a one-piece drawn base pan and innovative compressor and drive technologies let you enjoy more efficiency—and less noise.

SOUND RATING²

Among Air Conditioners, This One's a Star³

Earning **ENERGY STAR**® recognition means products meet strict energy efficiency guidelines set by the U.S. Environmental Protection Agency. ENERGY STAR certified heating and cooling equipment can enhance the comfort of your home while saving energy—which saves money on utility bills and protects our climate by reducing harmful carbon pollution and other greenhouse gases.
