Engineered for

Innovation You Can Count On

Patented industry-first features and advanced design make the Ruud Endeavor WA15AZ a smart choice.

Peace-Of-Mind Performance

Relax, you're covered by a dependable warranty¹—5 Year Parts and 10 Year Conditional Compressor.

Energy Efficiency Savings

Just like a vehicle's MPG, the higher the SEER2 and EER2 rating (Seasonal Energy Efficiency Ratio / Energy Efficiency Ratio), the higher the efficiency of your air conditioner—allowing for energy savings month after month. Keep in mind, other factors such as system matching, sizing, ductwork and installation also affect overall efficiency. By working with a properly trained contractor, you can be confident that you are choosing the best heating and cooling system for your home's comfort and your budget.

Genuine Comfort

Inverter driven, variable speed, twin rotary compressor technology features cooling operation between 45% and 70% of capacity (ramping up to 100% when required) to continuously meet your ever-changing cooling needs. You'll enjoy exact temperature and advanced humidity control that combine to exceed your comfort expectations.

Less Environmental Impact

The 7mm condenser coil² provides a decrease in refrigerant requirements up to 15%, lowering the amount of greenhouse gases emitted while contributing to our sustainability goal of a 50% reduction in our greenhouse gas footprint by 2025. A win for all of us.

Rugged Curb Appeal

Louvered side panels provide excellent protection to internal components, while modern cabinet aesthetics, including the powder coat paint system and one-piece drawn and painted base pan, prevent corrosion—allowing your unit to put its best face forward for years to come.

Quiet Operation

Efficient home comfort shouldn't be noisy. That's why our air conditioners are engineered with acoustics in mind. Integrated sound-dampening features such as refrigerant tubing design, fan blade approach, a one-piece drawn base pan and innovative compressor and drive technologies let you enjoy more efficiency—and less noise.

Powerful **Performance**

TESTED. TRUSTED. **TOUGH.**

From the smallest part to complete comfort systems, we engineer quality into every piece of equipment to be sure it's tough enough to deliver the maximum performance you count on day after day, year after year. That reliability is what makes Ruud different—and better.

ENDEAVOR®

Simplified Install & Service with Bluetooth Technology

Built-in Bluetooth® connectivity makes it faster and easier for your contractor to install and service your new system. This can help lower your costs and help make your home comfortable again—fast.

FEATURES AT A GLANCE

Cooling Efficiencies Up To:
15.2 SEER2 / 9.8 EER2

Nominal Sizes: 2 to 5 Tons

Cooling & Heating Capacities:
22.8 to 56 kBTU

Sound Rating³: As low as 61 dB

Compressor Type: Inverter Driven,
Variable Speed Twin Rotary

Condenser Coil Type²: 7mm

Feature Highlights:

**Variable Speed Twin Rotary
Compressor & Inverter Drive:**
Variable speed operation or 3-speed
operation (with 24V Two-Stage Thermostat)

Diagnostics:
Bluetooth technology aids in
quick & easy service

Limited Warranty¹:

Parts – 5 Years

Conditional Compressor – 10 Years
(registration required)
